

PRIVACY POLICY

Advanced Technology International (address: 315 Sigma Dr., Summerville, SC 29486, "ATI", "we") values your privacy and takes the protection of your privacy seriously. This Privacy Policy (this "Policy") describes how we collect, use, and disclose information that we obtain about users of the Alastar Mobile device application (the "Software").

By using the Software, you agree that any personal information you may provide will be handled as described in this Policy, and consent to the same. Your use of the Software, and any controversy or dispute related to the privacy or use of your personal information, is subject to this Policy, along with other applicable terms and conditions, including limitations on damages and resolution of disputes (the applicable license agreement for the Software in effect with your organization, for example), which are incorporated by reference into this Policy.

Information We Collect

ATI may collect information directly from you as well as through your use of the Software.

Information We Collect Directly From You. The Software requires a valid user account and password which would be provided to you by your organization. Such user account may require the submission of information by you such as your name, device phone number, user name and password. We may also collect additional optional information such as unit number and agency name.

Information We Collect Based On Your Approval Or Submission. You may elect to allow Alastar access to location data from your device. This location data will be available to your organization and for your organization's operations. At any time, you may change your election of whether or not to allow Alastar access to your location data at which time your location data will no longer be available to your organization. Electing to allow or not allow Alastar access to your location data is a choice to be made by the individual user in conjunction with that user's supervisor/organization. In making that election, the user agrees to release and hold harmless ATI (its affiliates, successors, officers, employees, representatives, partners, agents and anyone claiming through them, in their individual and/or corporate capacities), from any and all claims, liabilities, obligations, promises, agreements, disputes, demands, damages, causes of action of any nature and kind, known or unknown, related to any loss of service or functionality of the Alastar Mobile device application arising out of or relating to an election not allow Alastar access to your location data.

Additionally, you may choose to use the Software to submit information to your organization as part of your organization's operations through forms and/or streaming video. The submission of such information is also subject to an individual user election in conjunction with that user's supervisor or organization and subject to the same waiver of liability related to the election to disallow access to your location data from your device.

Information We Collect Automatically. We may automatically collect information about you and your use of the Software through cookies, web beacons, and other technologies and methods. The information we collect in this manner may include the following: your domain name, IP address, and manner in which you connect with or to the Software; information about your browser, device, operating system, and mobile device; the date and time on which you use the Software or Services and the length of time you do so; details regarding your use of the Software.

Use of Information Collected

The information collected is strictly used in connection with the Alastar Software licensed to your organization and used for your organization's operations. From time to time we may solicit feedback from you or your organization regarding your use of the Software and areas for improvement. Responding to such requests are not a requirement for continued use of the Software.

Disclosure of Information

Information collected as part of the Software is considered confidential information and is handled in accordance with your organization's license agreement for the Software. Subject to the terms and conditions of the license agreement with your organization, there may be instances in which the information we collect is shared as follows:

- *Affiliates, Subsidiaries, and Partners.* We may disclose the information we collect to our affiliates, subsidiaries, and partners (including resellers, for example); however, if we do so, their use and disclosure of information will be subject to this Policy, and, where required by law, we will obtain your consent to such transfers.
- *Business Transfers.* If we are a party to a merger, acquisition, or other corporate restructuring (or similar activity), we may transfer the information we have collected to another company party to such activity. Similarly, if we are a party to a bankruptcy proceeding, the information we have collected about you may be transferred to an acquiring or merged entity.
- *In Response to Legal Process.* We may disclose the information we collect from you in order to comply with applicable law, a judicial proceeding, court order, or other legal process, such as in response to a court order or a subpoena.
- *To Protect Us and Others.* We also may disclose the information we collect from you where we believe it is necessary to investigate, prevent, or take action regarding illegal activities, suspected fraud, situations involving potential threats to the safety of any person, suspected or actual violations of our this Policy or other agreements (including acceptable use policies) between you and ATI or our partners, or as evidence in litigation in which ATI is involved.

Use of Cookies and Other Tracking Mechanisms

Wowza may use cookies, local storage objects ("LSOs"), clear GIFs, and other tracking mechanisms to track your use of the Software.

Cookies. Cookies are alphanumeric identifiers that we transfer to your computer's hard drive through your web browser for record-keeping purposes. Some cookies allow us to make it easier for you to navigate our Site, the Software, and Services, while others are used to enable a faster log-in process or to allow us to track your activities at our Site, in our Software, and while using our Services. Most web browsers automatically accept cookies, but if you prefer, you can edit your browser options to block them in the future. The "Help" portion of the toolbar on most internet browsers will tell you how to prevent your computer from accepting new cookies, how to have the browser notify you when you receive a new cookie, or how to disable cookies altogether. Visitors to our Site who disable cookies will be able to browse certain areas of the Site, but some features, including shopping cart and purchases, may not function fully or in the manner intended if you disable cookies.

Local Storage Objects, Clear GIFs, tracking pixels and pixel tags, and other technologies. We may use Local Storage Objects (“LSOs”), to store your Site preferences and to personalize your visit to our Site. LSOs are different from browser cookies because of the amount and type of data stored. Typically, you cannot control, delete, or disable the acceptance of LSOs through your web browser. Similarly, clear GIFs are tiny graphics with a unique identifier, similar in functionality to cookies. In contrast to cookies, which are stored on your computer’s hard drive, clear GIFs are embedded invisibly on web pages. We may use clear GIFs (a.k.a. web beacons, web bugs or pixel tags), in connection with our Site to, among other things, track the activities of Site visitors, help us manage content, and compile statistics about Site usage. We and our third-party service providers also use clear GIFs in HTML emails to our customers, to help us track email response rates, identify when our emails are viewed, and track whether our emails are forwarded.

Your Choice

You may always choose whether to share information about yourself. Although the Software may fail to provide you with certain functionality or benefits if you do decline to provide information to the Software.

Security of Personal Information

We have implemented commercially reasonable measures to protect the information we collect about you from loss, misuse, and unauthorized access, disclosure, alteration, or destruction. Of course, despite any amount of effort, no data security measures can guarantee security or confidentiality, and we encourage you to also take prudent measures to protect your information. Prudent steps include signing off after using a shared computer, choosing a robust password that nobody else knows or can easily guess, and keeping your log-in and password information private. We are not responsible for any lost, stolen, or compromised passwords or for any activity on your account via unauthorized password activity.

Updates to this Policy

We may update this Policy occasionally to ensure that you are informed of our practices with regard to personal information. Depending on our view of the significance of the update, we may send an email to the Software users notifying them of the update. Your continued use of the Software, following such an update to this Policy indicates your acceptance of the updated Policy.
